

Many people believe that organizing a global sports event is beneficial on the hand for some, it is just a waste of time and money. I strongly believe, it has more positive impacts than the drawbacks. This essay will discuss both the views in the following paragraph.

Firstly, organizing such events will improve the infrastructure and boost the economy of the country. It is a question of reputation and dignity when you are presenting your country all over the world. Hosting such games will not only encourage tourism and will increase the revenue. For example - selling tickets at the stadium will bring lot of money. Delhi has developed a lot ~~later~~ in terms of infrastructure during the time of commonwealth games held in 2010.

On the other hand, such events affects the citizens of the hosting country such as traffic jams and increase in crime rate. Due to lot of visitors and tourists, it is difficult for the country citizen to reach ~~at~~ their work places on time. In one of the surveys, it is proved that number of crime rate has been increased during such events.

To conclude, there are certainly some drawbacks to hosting such event however if these events organise in a proper manner, it would be a opportunity for a nation to boost the economy ~~in every~~
