The pie charts depict the information about how much sales retail sectors have done through e-commerce from 2005 to 2010 in Canada.

Overall, it can be clearly observed that Food & Beverage was the largest segment among others in 2010. whereas in 2005, electronics & appliances became the biggest retailer & in online shopping.

To begin with, in 2010, Electronics & Appliance and food and beverage were the largest sellers, in percentage-wise. food & beverage was the second-lowest in percentage at 22% in 2005, but in 2010, it got increased with 10% of difference. However the sales ^{percentage} went in reverse order for Electronic & Appliance from 35% in 2005 to 30% in 2010. Similarly, home furnishing sellings went down with the difference of 10% from 2005 to 2010; which acted oppositely with the same difference of food & beverage sector. Lastly, the ~~sellings~~ of video game was in least percentage at 18% in 2005, but then it sharply increased to 23% in 2010, which made home furnishing last in contribution among three of them.
