

Dear Sirs,

I am writing this letter in reference to the recently published article about my city "Timberland". The article mentions about the golf facility available in our area for tourists. This facility had been closed for outsiders from last six months pertaining to Covid extenuation.

Tourists often come to this golf club after reading your article and it becomes very difficult for us to deny them for entry. This has also impacting the reputation of our club.

It's my humble request to you to publish an another article in your magazine informing the public about it. This would help tourists in saving their efforts to travel such a long distance and it would help us to manage unnecessary chaos.

Yours sincerely
Mehmet
