

Dear Sir,

I am writing this letter to bring the problems into your consideration which the people in my society i.e. The Society, are going through due to bad internet connection.

The internet connection which was initially set up ~~in the beginning~~ was 100Mbps but later as most people are working from home due to the pandemic, the speed is distributed among us we are facing the speed issue. The same problem was stated by most of the society members.

Most of us are working from home which requires a good network connection throughout ^{the} day. This also includes international video calls, conference meetings etc. which requires a high-speed connection. Moreover, the children are also taking their online classes, and they facing problems sometimes while uploading their online tests.

I request to take immediate action ~~to~~ by upgrading the internet.

connection to optic fibre connection
which could give a ^{high} speed upto
250 mbps. kindly try to resolve
this issue as soon as possible
so that not much work is
hampered.

looking forward for your
response towards this issue.

Yours faithfully
ABC.
