

Dear Madam,

I am writing this letter with regard to the feedback that you have asked for, related to the course of culinary that I have pursued at your institution.

I cherished every bit of the cookery class. First and the foremost thing that I was fond of during the session was the friendly environment since this kind of surrounding helps us to learn more efficiently. Furthermore, the great facet of this class was that we were imparted the cooking from the basis to advance not only but also international ^{cooking} fascinated me a lot.

After the session got over, I run my own cookery class as well as, I am running my own restaurant after the class got over and since then I have prepared almost all the dishes.

I am entitled to request that you should add, the art of cooking baking cake with the addition of, how to decorate it.

I look forward to hearing from you.

Yours faithfully,
Eram Fatima
